

SPECIFICATION AMENDMENTS

In the Specification:

At page 8, line 21, please amended to replace "Tween-20" with --TWEEN-20™, a polyoxyethylene sorbitol ester with a calculated molecular weigh of 1,225 daltons (also known as polyoxyethylenesorbitan monolaurate, Sigma, St. Louis, MO)--

At page 8, line 26, please replace "extravidin" with --EXTRAVIDIN™, a form of avidin that combines high specificity and affinity of avidin for biotin with low non-specific bidning at physiological pH--
